SMART HOME SYSTEMS

COBACO SMART HOME
 MANUFACTURER OF SMART
 HOME SYSTEMS SINCE 2009

Control Behn Afagh knowledge-based company, managed by directors with decades of experiences in construction industry, was established in 2009 aiming at the manufacture of automation systems

With God's blessing and the assistance of knowledgeable domestic experts, the company is now successfully manufacturing a full range of latest automation devices inside the country, and is progressing as fast as possible. The company is providing requests of the domestic construction industry with more cost-effective and economical options and domestic after-sales-service. Therefore, during the last years, we have been witnessing the application of Cobaco products in hundreds of housing projects .
